

In the Event of Bad Weather

While we hope we won't be having snow, we thought it worthwhile to put a reminder out of the procedures to follow in the event of extreme weather conditions. A decision as to whether to open the school will be based on ensuring that the school site is safe and that sufficient numbers of staff can travel to school themselves.

The most reliable and updated source of information for all parents will be the school's own website www.st-francis.n-somerset.sch.uk which we would anticipate updating very regularly to keep you informed. If you ring the school number the welcome message will also be kept updated. We will also send an email to those families who have **verified** their email address on ParentPay – check your account.

It is worth listening to the local radio stations although, as we have found in previous years, the North Somerset Council website www.n-somerset.gov.uk and local radio stations can have a time lag in updating their sites.
