Ensuring for all an excellent child-centred education within a Christ-centred philosophy

10 May 2018

Dear Parent/Carer

On **Tuesday 22 May**, our class has been invited to participate in a unique STEM (science, technology, engineering and maths) day hosted by the Royal Air Force, EDT and Bristol Aerospace.

The programme provides quality science, technology, engineering and maths curriculum enrichment for young people. These hand-on activity days are designed to excite and enlighten the students on how STEM is fun, interesting and can result in a rewarding career.

During the day the children will take part in a number of hands on STEM challenges and will learn about the royal Air Force in their special, centenary year.

We will leave school at 9am and will return to school by the end of the school day. Children will need to bring a packed lunch with them.

This trip is being funded by the class grant from the Friends and will be free of charge. Please complete and return the permission slip below by **Friday 18 May** to enable your child to participate.

Many thanks

Anna Field

RETURN BY FRIDAY 18 MAY

I give permission for _____ to go on the school trip to Bristol Aerospace on **Tuesday 22 May**
